

3 POINT HITCH SEEDERS

SM 155 / 205

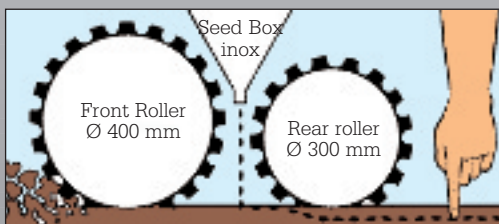

Coil tine track remover kit

SEVERAL OPERATIONS IN A SINGLE PASS

The 3 point hitch DAIRON seeder performs the following operations in a single pass :

- **GROUND GRADING AND COMPRESSING**, thanks to rollers which compress top soil clods and debris.
- **BURYING OF SMALL PARTICLES** which trouble fine seeding : small flints with under 20 mm diameter, overgrowth,...
- **SEEDING ALL KINDS OF TURF SEEDS**, by means of high capacity stainless steel seed-box.
- **SEEDING ALL TYPES OF GROUND**, whether flat or undulating, dry or wet, sloped or unprepared by using the floating rear roller

The front roller breaks clods and levels the seedbed

The rear roller covers and presses the seed to a maximum 12mm depth.

Technical Data

SEEDER TYPE	SM 155	SM 205
Weight	530 kg 1168 lbs	712 kg 1570 lbs
Dimensions : (mm)		
Length	1140 (45")	1140 (45")
Width	x 1780 (70")	x 2280 (90")
Height	x 1100 (42")	x 1100 (42")
Seeding width	1500 mm / 60"	2000 mm / 80"
Seeding depth	0 mm < accurate seeding < 12 mm 0" < accurate seeding < 0,47"	
Required power	30 to 60 HP	50 to 95 HP
3 point hitch	Categories 1 & 2	
Standard equipment	<ul style="list-style-type: none"> • Front and rear iron cast notched rollers • Double floating axles (rear roller) • Scrapers front & rear • Coil tine track remover kit • Movable 3 point-hitch • Stainless steel seed-box • Seed gauge • Windproof guarding 	
Distribution and seed rate adjustment (highly accurate)	<ul style="list-style-type: none"> • Seed valve agitator • Fine seeding with dial seed valve 	
Seed volume	150 litres	200 litres
