This single-operator Sod Harvester is state of the art and capable of producing pallet after pallet of 16", 23" or 24" small rolls even in tender conditions. Simple, compact, & maneuverable the **4000 Automatic Stacking Roll Harvester** has a tight turning radius and easy back up capability combined with a simple *robotic stacking system* that gently transfers up to 5 rolls of turf to the rear mounted pallets, effortlessly handled with a forklift and staked *flat* or in *pyramid tops*. Pallets may be dropped on the go or easily backed out of the way of the cut line for multi-machine operations. Easy to operate and maintain without sacrificing comfort, the **Brouwer 4000** boasts a deluxe OEM cab including tinted windows, interior climate control and additional training seat, proving our commitment to your business performance. Setting new standards in the turf industry, the **Brouwer 4000** is a cut above the rest.
